

TO WHOM IT MAY CONCERN

I, Keith, would like to say that Lonnie has been a very friendly and helpful neighbor to me and everyone in the neighborhood. I have never had any problems with him, or have I ever seen him having trouble with anyone.

He has been having a lot of trouble finding a good job due to his past history, his problems with fighting several cancers, and it seems now that his living arrangements are again being targeted, only because he is on the registry and it has nothing to do with his actions with anyone in the area.

Being removed from the registry would help him find a better job and improve the chances that he can remain in his present home.

Thank you, Keith
