

DATE: March 11, 2025

TO: The Honorable Susan Humphries
Members of the House Committee on Judiciary

FROM: Beth Smoller, General Counsel
Kansas Association of Insurance Agents

RE: SB 54; regarding third party financing of lawsuits

The Kansas Association of Insurance Agents (KAIA) is a statewide association of independent insurance agents. The KAIA has approximately 300 member insurance agencies with more than 2,200 licensed independent insurance agents throughout the state of Kansas. Thank you for the opportunity to submit written testimony in support of SB54, which would allow a party to *“On and after July 1, 2025, any third-party agreement under which a person has a contractual right to receive, directly or indirectly, compensation that is contingent in any respect on the outcome of the claim must be reported to the judicial council within 45 days after the commencement of an action in any Kansas court in which such a third-party agreement exists or within 45 days after such third-party agreement is entered into, whichever is later.”*

The Kansas Supreme court ruled in 2019 that the state’s statutory cap on non-economic damages was unconstitutional. This decision was a major blow to the state’s business community. Our members, who are small businesses and work for small business clients, support legislative efforts to mitigate the impact of this decision. The new legal environment not limiting economic damages makes businesses especially vulnerable to bogus and abusive litigation. One nuclear jury award would be enough to put a small business out of business and have a chilling effect on other entrepreneurs. As a result of this new climate in Kansas, many business owners are seeing insurance rates increase due to increased exposure and the growing number of cases and settlement amounts.

Our member agents strive to be the leading and most trusted resource for helping individual families and businesses with their insurance needs. As such, KAIA’s mission includes advocating for measures that provide a favorable insurance marketplace and climate that allows Kansans to thrive. We believe SB 54 helps to achieve this goal.

KAIA is firmly supportive of SB 54 and we urge the committee to pass the bill out favorably.
