Honorable Chairperson Susan Humphries, Vice Chair Laura Williams, and Minority Leader Dan Osman:

I write in support of HB 2389 regarding bail being denied to suspects accused of sexual assault, who may have been convicted of prior charges of sexual assault or other severe crimes. Allowing prosecuting attorneys the chance to research the background of aforementioned suspects, while still being detained, prevents a suspect from committing similar crimes and maintains the safety of alleged victims.

Thank you, in advance, for your favorable consideration of HB2389, which seeks to provide additional time to review the alleged criminals' past acts.

Respectfully submitted:
