HB2160

Proponent

Written Only

Chairman Berquist and Members of the Local Government Committee,

I am submitting my proponent testimony on HB2160

HB2160 Provides essential protections for municipal employees who report misconduct.

Whistleblowers play a critical role in exposing fraud, abuse and safety concerns.

Without protection, employees may fear retaliation and remain silent about serious issues.

Protecting Whistleblowers benefits taxpayers by reducing corruption and ensures public funds are used responsibly.

Transparency and accountability in government should be encouraged at all levels.

This bill promotes honesty, integrity and good governance.

Thank-you

Tammy Minihan
