

Chairwoman Tyson and Committee Member,

I support SB 319. Many of us are senior citizens on fixed income. A big chunk of our fixed income is going towards our property taxes. It is insane to have these property taxes increase greatly every year.

How are we to keep updating/fixing our homes if so much money is going towards property taxes? How long can we continue to pay these high property taxes?

Please pass SB 319.

Thank you.
