Senate Committee on Education

SB 339, written testimony only

Respected Chair Erickson and Committee Members,

I am a proponent of SB 339 and ask that you vote YES on this bill and pass it favorably out of Committee.

We need to get these kids outside to play together as part of a healthy school day. There needs to be a balance of learning and playing; making sure the kids get outside to get some exercise and some true play time with their classmates is important to the success of every school day. The old adage "all work and no play" comes to mind.

Again, please vote YES on SB 339.

Thank you!

Most Sincerely,

Jill O'Connor
