SB70

Proponent

Written Only

Chairman Warren and Members of the committee,

I am submitting my proponent testimony for SB70. I strongly support the part of SB70 dealing with defined costs associated with electronic KORA requests. The past four years have been turbulent, and the amount of citizen involvement has been on the rise. Some jurisdictions have attempted to charge an overly higher price to try and slow down the number of open records requests. A defined cost for electronic copies will make things easier for both sides to know exactly what the costs will be. I urge the committee to support the KORA costs of the bill SB70.

Respectfully,

Brett Anderson

Republican Precinct Committeeman

Sedgwick County
