

Critical Infrastructure Facility Trespass; HB 2061

HB 2061 amends the definition of “critical infrastructure facility” as it relates to the crimes of trespassing on a critical infrastructure facility and criminal damage to a critical infrastructure facility in the Kansas Criminal Code.

The bill expands the definition of a critical infrastructure facility, when the facility is used for wireline, broadband, or wireless telecommunications or video services infrastructure, to include any aboveground or belowground line, cable, or wire.

Additionally, the bill specifies that the term “critical infrastructure facility” includes:

- Antennas, radio transceivers, towers, wireless support structures, small cell facilities, and any associated support structures and accessory equipment; and
- Related equipment buildings, cabinets and storage sheds, shelters, or similar structures.
