

Precedence of Child-related Orders in Protection from Abuse Act; SB 135

SB 135 makes technical amendments to law concerning orders issued under the Protection from Abuse Act (PFAA) by reorganizing certain sections to clarify how a protection order may be affected when a child-related order is issued pursuant to another legal action.

The bill replaces language referencing orders issued pursuant to various specified chapters and articles of the *Kansas Statutes Annotated* with “order issued in any action.” [Note: The bill does not make any substantive change to the order of precedence currently applied by Kansas courts.]
