

UNIVERSITY OF KANSAS MEDICAL CENTER

Budget Summary – Agency Request

Executive Summary

The University of Kansas Medical Center (KUMC) is under the jurisdiction of the University of Kansas. The Executive Vice-Chancellor of KUMC reports directly to the Chancellor of the University of Kansas. KUMC is composed of the School of Medicine (located in Kansas City and Wichita), the School of Nursing, the School of Allied Health, and a graduate school. KUMC was established in 1905 through the merger of several proprietary medical schools; the first building on the present site was opened in 1924.

Approved Budget

1. 2025 SB 125

The 2025 Legislature passed, and the Governor enacted, one bill appropriating and adjusting funding for state agencies. Select appropriations for this agency include:

- **2025 Pay Plan:** The Legislature approved increasing funding by \$10.5 million, including \$2.2 million SGF, in FY 2026 to implement a legislative pay plan providing an increase of 2.5 percent as a merit pool; and
- **Specialty Medical Student Loan Program:** The Legislature approved \$1.9 million SGF to the newly created Specialty Medical Student Loan Program and added language reappropriating any remaining funds from the OBGYN Medical student loan account and Medical Scholarships and Loans Psychiatry account to the newly appropriated account for FY 2026.

Reappropriations

2. SGF Reappropriation

The agency reappropriated \$85.2 million in unspent SGF funds from FY 2025 to FY 2026. This includes:

- **Student Financial Aid (\$4,956):** This is funding for student financial aid made available to graduate students; a small amount was left due to the timing of disbursements across the two fiscal years and will be utilized in FY 2026;

UNIVERSITY OF KANSAS MEDICAL CENTER

Budget Summary – Agency Request

- **Kansas Medical Scholarship Loan – Psychiatry (\$3.4 million):** These funds are used to provide scholarships to students who agree to practice in rural areas of Kansas for a certain period of time. The amount expensed in a given year is dependent upon the number of psychiatry students and applicants. As of FY 2026, these funds were combined with the OBGYN Medical Student Loan account and funds may also be allocated to OBGYN students;
- **OBGYN Medical Student Loan (\$323,782):** This is a relatively new source of funding and the reappropriation has dropped year-over-year as communication around the availability of the program to students grows. KUMC anticipates spending the full amount of funding and reappropriation in FY 2026;
- **Kansas Bridging Plan (\$30,000):** This program is similar to the Medical Scholarships and Loans - Psychiatry, but is restricted to Kansas residents and available only to doctoral students. Expenses are dependent upon the number of students and applicants;
- **Cancer Research Facility (\$72.7 million):** This is funding provided for a capital project to construct a new Cancer Center that is currently underway with expenses planned through FY 2027;
- **Wichita Residency Program (\$29,071):** These funds were expended in the university's accounting system in FY 2025, however, they were incorrectly billed. This discrepancy was noted and corrected in early FY 2026;
- **Stem Cell Therapy Center (\$834):** This is funding for stem cell research; a small amount was left due to timing of disbursements across the two fiscal years and will be utilized in FY 2026;
- **Health Science Center / Biomedical Center (\$6.5 million):** This capital project to construct the Wichita Biomedical Campus is underway. This amount was transferred to Wichita State at the beginning of FY 2026;
- **Kansas Bridging Plan - OBGYN (\$30,000):** This program is similar to the OBGYN Medical Student Loans, however, it is restricted to Kansas residents and available only to doctoral students; therefore expenses are dependent upon the number of students and applicants; and
- **Demolition (\$2.2 million):** This funding will be used to demolish the Olathe Pavilion. The University also plans to demolish a neighboring building, the Student Center. As these two buildings share utility lines, it is more cost-effective to facilitate simultaneous demolition. The relocation of people and operations is in progress.

3. Educational Building Fund

The agency reappropriated \$6.2 million in unspent SGF funds from FY 2025 to FY 2026. This funding will be used with the annual transfer for rehabilitation and repair projects on the campus.

Other Changes

4. Salaries and Wages

The agency's revised estimate includes an all funds increase of \$5.4 million, including a decrease of \$8.3 million SGF, in FY 2026. The overall increase is primarily due to increased federal funds for sponsored research and clinical contracts during FY 2025. The SGF decrease is largely due to the agency shifting its SGF funding to contractual services in FY 2026.

5. Contractual Services

The agency's revised estimate includes an all funds increase of \$32.4 million, including \$8.3 million SGF, in FY 2026. The overall increase is primarily due to additional administrative charges and shared

Budget Summary – Agency Request

costs to the main campus, additional storage server for research purposes, and contracts with the University of Kansas Health System, the VA, and other affiliates. In FY 2026, these entities contracted with an additional 59 residents through the agency which contributes to the increased expenditures; however, the associated expenditures are reimbursed by the contracted parties. Additionally, the increase includes costs related to the Cancer Center and utility costs for the Cancer Center and Biomedical Campus.

6. Capital Improvements

The agency's revised estimate includes an increase of \$18.8 million, including a decrease of \$6.5 million SGF, in FY 2026. The overall increase is primarily due to federal grants related to the Cancer Center building currently under construction. Additionally, the increase is due to transfers from KBOR for the Educational Building Fund (\$6.5 million) and the Kansas Campus Restoration Act (\$3.1 million). The SGF decrease is due to the agency transferring \$6.5 million to WSU for construction of the Biomedical Center.

7. All Other Adjustments

The agency's revised estimate includes other adjustments resulting in an increase of \$4.0 million, including an increase of \$154,489 SGF, in FY 2026. The all funds increase is primarily due to commodities increases for research supplies for the Research program related to the increased sponsored research and clinical contracts. The SGF increase is largely due to a transfer of \$128,550 for need-based aid.

The agency's revised estimate also includes an increase of 141.8 FTE positions in FY 2026. This is primarily due to additional headcount in new programs including Hybrid PT, genetics counseling, and significant increases in undergraduate nursing programs, as well as increased for the planned programs on the Biomedical Campus. Additionally, 59.0 of the increased FTE are related to the residents contracted with affiliates, described above.

Agency Changes

1. Salaries and Wages

The agency's request includes an increase of \$7.1 million, including a decrease of \$8.0 million SGF, for FY 2027. This continues the trend of increased sponsored research and clinical contracts and the agency shifting its SGF funding to contractual services expenditures.

2. Contractual Services

The agency's request includes an increase of \$27.2 million, including \$8.7 million SGF, for FY 2027. This continues the contractual service trends identified in FY 2026.

3. Capital Improvements

The agency's request includes an increase of \$67.7 million, including \$8,495 SGF, for FY 2027. The increase is primarily related to the Cancer Center building, with expenditures funded by endowment contributions.

4. Fringe Benefits

The agency's request includes an increase of \$839,303 SGF for fringe benefits for FY 2027. These increases are based on increases in the cost indices and include an increase of \$843,609 for health insurance rates and a decrease of \$4,306 for KPERS rates.

5. All Other Adjustments

The agency's revised estimate includes other adjustments resulting in an increase of \$624,891, including a decrease of \$791,854 SGF, for FY 2027. The agency's revised estimate also includes an increase of 166.8 FTE positions for FY 2027. These adjustments continue the trends identified in FY 2026.
