

OFFICE OF THE SECRETARY OF STATE

Budget Summary – Agency Request

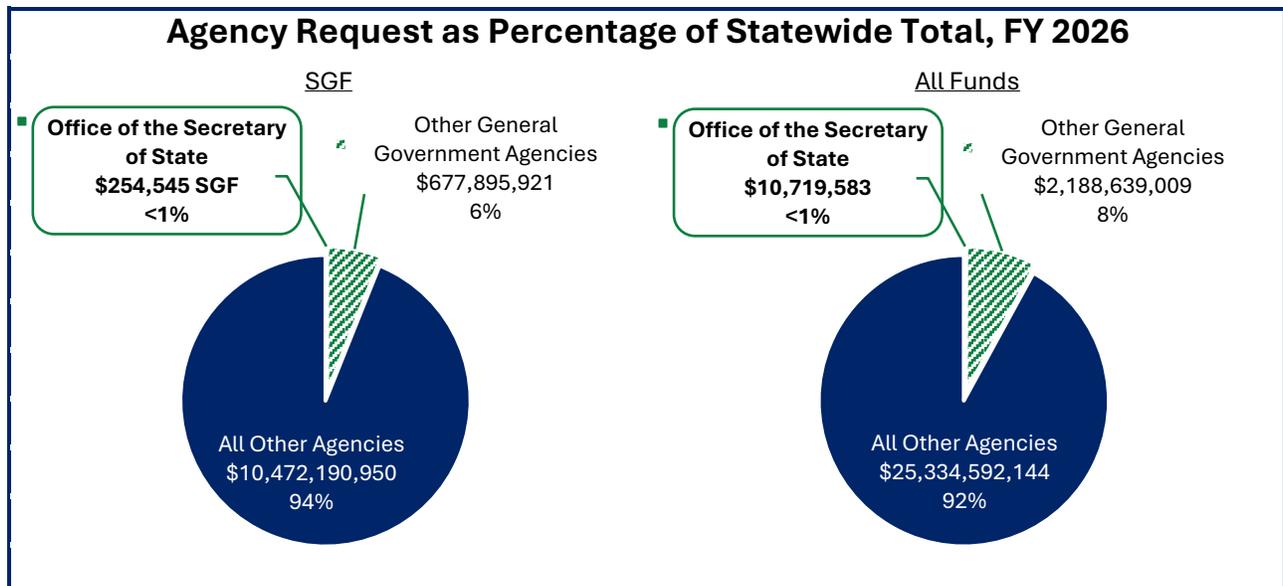

Executive Summary

The Office of the Secretary of State, created by Article 1, § 1 of the *Kansas Constitution*, is led by an elected Secretary serving a four-year term who may appoint an Assistant Secretary of State and up to five Deputy Assistant Secretaries. The Secretary’s duties include countersigning gubernatorial commissions, filing declarations of candidacies, indexing charter ordinances, publishing regulations for constitutional amendments, administering elections, collecting certain Kansas business records, and publishing the *Kansas Statutes Annotated (KSA)* and *Session Laws of Kansas*. The office has three divisions:

- The **Administration Division**, which manages operations, publications, legal services, and IT;
- The **Business Services Division**, which handles filings for Kansas businesses and the Uniform Commercial Code; and
- The **Elections Division**, which oversees elections, lobbyist registrations, campaign finance disclosure, Help America Vote Act (HAVA)¹ compliance, Kansas flag sales, and Statements of Substantial Interest.

The agency is located in Topeka in the Docking State Office Building, 915 SW Harrison Street.

Budget Summary – Agency Request

Budget and Policy Snapshot

The tables below provide a selection of items that inform the agency budget request. These items include **supplemental and enhancement requests** (NEW), adjustments related to **reappropriated funds** (E), **language-only policy changes** requested for inclusion in legislation, changes in **federal or state policy** that impact agency funding, and other budgetary items.

These tables are not intended to be a comprehensive list of changes in the agency budget request. For more detail on individual fiscal year requests, please refer to the [FY 2026 Analysis](#) and [FY 2027 Analysis](#) sections later in this document.

FY 2026

Item	Amount	Source	Note
NEW 2024 Election Security State Match	\$ 200,000	SGF	\$200,000 SGF for the 2024 HAVA match was appropriated in FY 2025 but not deposited into the Democracy Fund.
NEW 2025 Election Security State Match	54,545	SGF	20 percent state match for federal grant.
Regulation Modernization Software	1,450,000	Information Service Fee Fund	Replace paper-based system with a digital system.
Federal HAVA Funds for Counties	800,000	HAVA Election Security Fund	Funding to provide election security grants to counties, including an increase of \$300,000 above the FY 2026 approved amount.

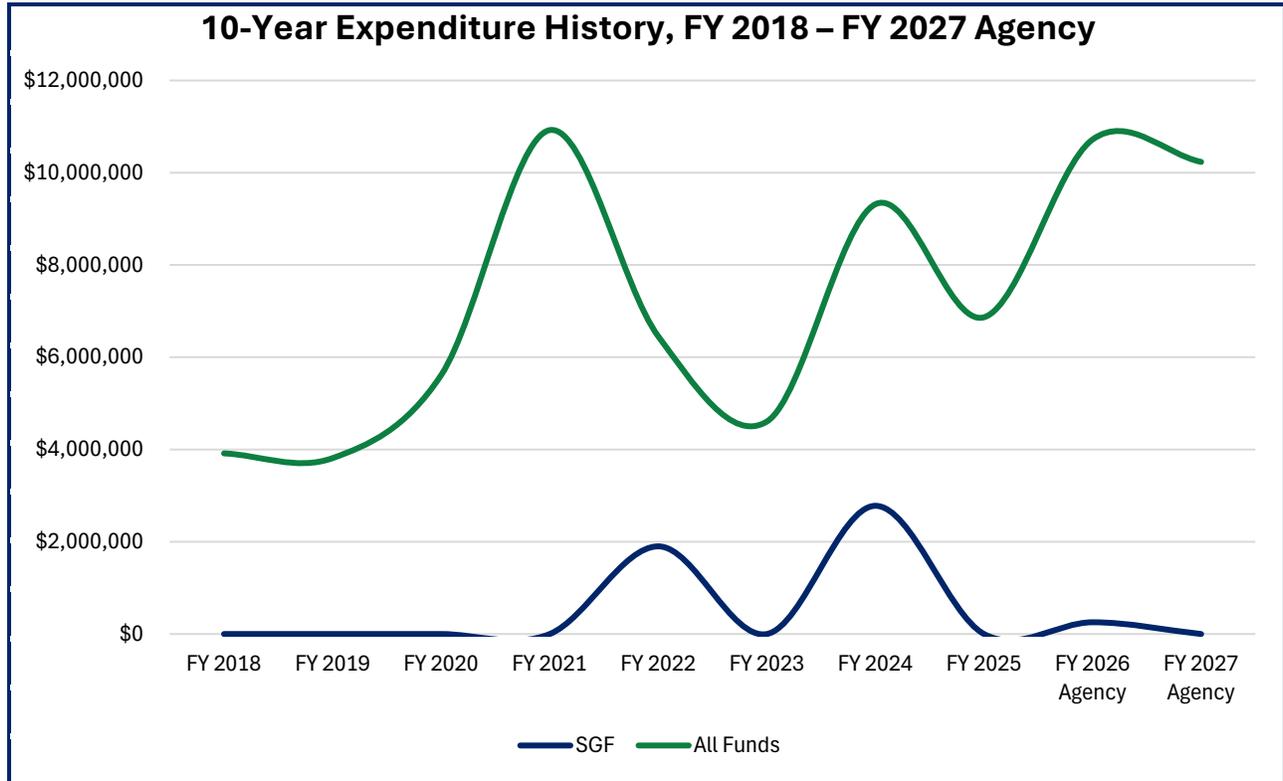

FY 2027

Item	Amount	Source	Note

Fee Fund Analysis

The Information and Services Fee Fund allows the Office of the Secretary of State to charge and collect an information services fee. Per statute, all monies received by the agency are remitted to the State Treasurer. Upon receipt of said money, the State Treasurer deposits the entire amount in the treasury, but the money is credited to the Office of the Secretary of State under the Information and Services Fee Fund.

Revenue projections for the Information and Services Fee Fund are based on receipt trends, the economy, changes in law, fee increases and decreases, and the volume of documents filed electronically. (In many cases, the electronic fee is lower.) The Information and Services Fee Fund is one of the primary funds for operating expenses, including salaries and wages.

Approved Budget

1. 2025 SB 125

The 2025 Legislature passed, and the Governor enacted, one bill appropriating and adjusting funding for state agencies. Select appropriations for this agency include:

- **Regulation Modernization Software:** The Legislature approved adding **\$1.5 million**, all from special revenue funds, in FY 2025 for the agency to modernize the state regulation-making process by implementing an electronic regulation system. The state’s regulatory process is paper-based and largely unchanged since the 1960s. The agency did not expend these funds in FY 2025 as the procurement process was still underway.
- **2024 Election Security State Match:** The Legislature approved adding **\$200,000 SGF** in FY 2025 to meet the state match requirement of 20.0 percent for a \$1.0 million HAVA Election Security Grant from the [U.S. Election Assistance Commission](#) (EAC). This match is required to be provided by May 2026. Although the 20.0 percent match was appropriated to the agency in 2025, the funds were not deposited into the Democracy Fund.
- **2025 Pay Plan:** The Legislature approved the 2025 Pay Plan, which included adding **\$90,203**, all from special revenue funds, to provide salary increases for most state employees based on the Department of Administration’s market survey for FY 2026.

OFFICE OF THE SECRETARY OF STATE

Budget Summary – Agency Request

Supplemental Requests

2. 2024 Election Security State Match

The agency's revised estimate includes adding **\$200,000 SGF** to provide the required state match for the 2024 HAVA Election Security Grant and to transfer the funds to the Democracy Fund for FY 2026. Although the agency received a \$1.0 million federal grant from the EAC in 2025 and the 2025 Legislature appropriated the matching funds, the state match was not deposited into the interest-bearing Democracy Fund, making this supplemental request necessary. The Help America Vote Act of 2002 (HAVA) requires states to establish an interest-earning election fund into which grant funds are deposited and maintained to support the implementation of HAVA Title III activities.

3. 2025 Election Security State Match

The agency's revised estimate includes adding **\$54,545 SGF** to provide the required state match for the 2025 HAVA Election Security Grant and to transfer the funds to the Democracy Fund for FY 2026. In 2025, the agency received a federal grant of \$272,727 from the EAC, for which \$54,545 represents the required state match. This state match is separate from the funding provided for the 2024 HAVA Election Security Grant.

Other Changes

Absent of supplemental requests, the agency's revised estimate for FY 2026 reflects an increase of **\$1.8 million, or 20.2 percent, and 0.5 FTE position**, all from special revenue funds, above the approved FY 2026 amount. This increase includes a \$1.7 million increase from the Information and Services Fee Fund, primarily attributable to the implementation of regulation modernization software.

4. Regulation Modernization Software

The agency's revised estimate includes an increase of \$1.45 million, all from the Information and Services Fee Fund, for the implementation of regulation modernization software. This expenditure is classified as capital outlay. As of August 2025, the agency completed the request for proposal (RFP) process and selected Esper as the official platform for managing all state regulations. The agency signed a three-year contract with Esper. Beginning in early 2026, all state agencies, boards, and commissions will use Esper to submit, track, and edit regulations through a centralized electronic system. A total of four agencies will have the capability to electronically review, approve, and adopt regulations within the platform: the Department of Administration, including the Division of the Budget, the Office of the Attorney General, and the Office of the Secretary of State. Full implementation and system go-live are expected in FY 2026, which is anticipated to streamline the regulation process and reduce reliance on paper-based systems.

5. Federal HAVA Funds for Counties

The agency's request includes an increase of \$300,000, all from federal HAVA Election Security Funds, for a total of \$800,000 for election security grants to counties. These grants are intended to help enhance security measures by funding upgrades to physical equipment and systems in anticipation of increased election activities. Counties will be reimbursed for approved expenses related to their election security upgrades.

6. Contractual Services

Contractual services expenditures decrease by \$177,308 (4.2 percent) in all funds, including an increase of \$142,985 in the Information Services Fee Fund, compared with the FY 2026 approved amount. Except for the HAVA Program, contractual services expenditures for the FY 2026 revised estimate are funded through the Information and Services Fee Fund. The decrease occurs mainly in the

OFFICE OF THE SECRETARY OF STATE

Budget Summary – Agency Request

Administration and HAVA programs, and is partially offset by increases in Business Services and Elections/Legislative Matters (ELM).

- **Administration:** Expenditures decrease for repairing and servicing (\$176,350), freight and express (\$89,500), printing and advertising (\$52,800), rents (\$35,100), and other contractual services (\$3,365). These decreases are partially offset by increases in professional services (\$14,305) and fees and other services (\$81,525). Contractual services expenditures for the Administration Program decreased by \$268,615 from the FY 2026 approved amount. Repairing and servicing decrease due to the end-of-life of the I-Series database (computer system modernization). Freight and express costs are expected to decrease in the Administration Division due to reductions in certain publication mailings. Printing and advertising costs remain relatively flat, reflecting flyers and handouts associated with the Kansas State Fair and other events. Rent expenditures decrease due to retirement of a warehouse lease following the move to the Docking Building.
- **HAVA:** Expenditures decrease for fees and other services (\$504,000); printing and advertising (\$200,000); and fees professional services (\$186,000), including election consulting and certification training. These decreases are partially offset by increases for rents for the Election Voter Information System (ELVIS) maintenance and support fees (\$549,600) and repairing and servicing (\$20,000), which includes ELVIS training for election officials and ELVIS hosting services and election tokens and maintenance. Part of the reduction is due to reimbursements from the counties, which create a credit balance. FY 2025 included additional payments in the state fiscal year, while county fiscal years follow the calendar year, resulting in timing differences for expense payments and related reimbursements. Budgeting includes expenditures for the voter registration database but does not record reimbursements because they are not guaranteed.

These decreases are partially offset by increases in the Business Services and Elections/Legislative Matters (ELM) programs.

- **Business Services:** Contractual services expenditures for the Business Services Program increase by \$113,300 from the FY 2026 approved amount. Expenditures increase for communications (\$101,000), printing (\$8,000), and fees and other services (\$2,000). Business Services communications expenditures increase due to the agency providing mailers for businesses regarding due dates for required filings. The increase is partially due to rising costs and partially driven by an increase in the number of filing entities.
- **ELM:** Contractual services expenditures for the ELM Program increase by \$298,300 from the FY 2026 approved amount. Expenditures increase for fees for professional services (\$72,000), printing and advertising (\$114,300), and freight and express (\$66,000) for shipping legal publications. ELM expenditures increase in printing and advertising, professional services, and freight and express. Advertising is planned prior to the mid-term elections, and FY 2026 increases are for voter information purposes.

7. All Other Adjustments

The agency requests an increase of \$186,173, all from special revenue funds, including an increase of \$122,150 from the Information and Services Fee Fund, above the FY 2026 approved amount for all other adjustments. This includes an increase of 1.0 FTE position in the Administration Program and a decrease of 0.5 FTE position in the Business Services Program, for a total FTE change of 0.5.

Salaries and wages increase by \$60,273, primarily due to higher health insurance costs (\$33,340, 8.2 percent) and employee pay adjustments (\$22,755, 0.08 percent).

OFFICE OF THE SECRETARY OF STATE

Budget Summary – Agency Request

The total increase of 0.5 FTE position, including a 1.0 FTE position increase in the Administration Program and a 0.5 FTE position decrease in the Business Services Program, results from the FY 2025 budget including part-time employees totaling 41.47 FTE positions, which were rounded to 42.0. The 0.5 increase reflects this rounding, and one approved FTE position was added to the Administration Division.

Absent the expenditure for the regulation modernization software, other capital outlay costs increase by \$126,650 to support equipment, furniture, computer hardware, and telecommunications in the Administration Program. These increases (excluding regulation modernization software) are expenditures for furniture, fixtures, and equipment related to the move to the Docking State Office Building. Additional purchases include computers and hardware to outfit conference rooms associated with the move.

Additionally, commodities expenditures decrease by \$750 from the approved amount.

TOTAL – Agency Request	\$	- \$	6,057,866	\$ 4,176,018	\$ 10,233,884	42.5	

Agency Changes

The agency’s request for FY 2027 reflects an increase of **\$1.5 million**, or **17.5 percent**, and **0.5 FTE position**, all from special revenue funds, above the approved FY 2026 amount. This increase includes \$1.4 million in expenditures from the Information and Services Fee Fund, primarily attributable to the implementation of regulation modernization software.

1. Regulation Modernization Software

The agency’s FY 2027 estimate includes \$1.45 million, all from the Information and Services Fee Fund, for the continued use and support of the regulation modernization software. The agency estimates that full implementation of the system will be completed by FY 2027. Because the system replaces a paper-based process with a digital platform, ongoing costs for the system are expected in future years.

2. Federal HAVA Funds for Counties

The agency’s FY 2027 estimate includes an increase of \$300,000, all from federal HAVA Election Security Funds, for a total of \$800,000 to provide grants to counties for election security improvements. The funds may be used for upgrades to equipment and systems, and counties will be reimbursed for approved expenditures.

3. Contractual Services

Contractual services expenditures decrease by \$406,963, or 9.5 percent, below the approved FY 2026 amount. The decrease occurs mainly in the Administration and HAVA Programs.

- **Administration:** Expenditures primarily decrease for repairing and servicing (\$200,650), freight and express (\$89,500), printing and advertising (\$52,800), and rents (\$37,350). Repairing and servicing decreases because there are no planned expenditures for the I-Series database in FY 2027. Freight and express costs decline because fewer publications are mailed as more services become available online. Printing and advertising costs remain flat, reflecting consistent materials for events such as the Kansas State Fair. Rent expenditures decrease following the warehouse lease retirement and the move to the Docking State Office Building.

OFFICE OF THE SECRETARY OF STATE

Budget Summary – Agency Request

These increases are offset by increases in fees and other services (\$64,075). Contractual services expenditures for the Administration Program decreased by \$322,720 from the FY 2026 approved amount.

- **HAVA:** Expenditures decrease for fees and other services (\$500,000), printing and advertising (\$200,000), and fees professional services (\$184,000), which include an election consultant and certification and maintenance. These decreases are partially offset by increases for rents (\$552,100) for ELVIS maintenance and support fees, and repairing and servicing fees (\$40,757) for election officials and ELVIS hosting services and election tokens and maintenance.

Decreases in the Administration and HAVA programs are partially offset by increases in the Business Services and Elections programs.

- **Business Services:** Contractual services expenditures for the Business Services Program increase by \$68,800 from the FY 2026 approved amount. Increases are primarily related to communications (\$62,000). Communications expenditures increase to support mailers notifying businesses of required filing due dates. The increase is driven by both higher costs and a growth in the number of business filings, consistent with agency practices.
- **ELM:** Contractual services expenditures for the ELM Program increase by \$138,100 from the FY 2026 approved amount. Some increases include freight and express (\$69,000) for shipping legal publications, printing and advertising (\$33,800), communications (\$11,400), and rents (\$11,200).

4. All Other Adjustments

The agency's request for FY 2027 includes an increase of \$184,674, all from special revenue funds, and an increase of 0.5 FTE position above the FY 2026 approved amount for all other adjustments. This includes an \$81,961 decrease from the Information and Services Fee Fund.

Salaries and wages increase by \$183,624, or 4.8 percent, above the FY 2026 approved amount. This includes a \$103,108 increase in employee pay and an \$80,516 increase in employee benefits. The increase in employee pay reflects the 2025 Legislature's approval of a 2.5 percent salary increase for classified state employees for FY 2026. From the FY 2026 agency's revised estimate to the FY 2027 request, employee pay increases by approximately 2.7 percent. This also includes an increase of 1.0 FTE position in the Administration Program and a decrease of 0.5 FTE position in the Business Services Program, for a total FTE change of 0.5.

The increase in employee benefits is primarily attributable to higher health insurance costs, which rise by \$68,429, or 16.9 percent, above the FY 2026 approved amount. Compared with the FY 2026 revised estimate, health insurance costs increase 8.0 percent, consistent with state budget indices showing a 7.8 percent increase in Single Member, Dependent, and Healthy Kids premiums.

Additionally, commodities expenditures on motor vehicle parts, fuel, clothing, and office supplies decrease by \$2,900.
