

2023 Kansas Statutes

72-5462. School district capital improvements; state aid entitlement; determination; amount; payments; applicability. (a) There is hereby established in the state treasury the school district capital improvements fund. The fund shall consist of all amounts transferred thereto under the provisions of subsection (c).

(b) In each school year, each school district that is obligated to make payments from its capital improvements fund shall be entitled to receive payment from the school district capital improvements fund in an amount determined by the state board of education as provided in this subsection.

(1) For general obligation bonds approved for issuance at an election held prior to July 1, 2015, the state board of education shall:

(A) Determine the amount of the assessed valuation per pupil (AVPP) of each school district in the state for the preceding school year and round such amount to the nearest \$1,000. The rounded amount is the AVPP of a school district for the purposes of this subsection (b)(1);

(B) determine the median AVPP of all school districts;

(C) prepare a schedule of dollar amounts using the amount of the median AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal \$1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts and shall range downward in equal \$1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the lowest AVPP of all school districts;

(D) determine a state aid percentage factor for each school district by assigning a state aid computation percentage to the amount of the median AVPP shown on the schedule, decreasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each \$1,000 interval above the amount of the median AVPP, and increasing the state aid computation percentage assigned to the amount of the median AVPP by one percentage point for each \$1,000 interval below the amount of the median AVPP. Except as provided by K.S.A. 72-5463, and amendments thereto, the state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district. The state aid percentage factor of a school district shall not exceed 100%. The state aid computation percentage is 25%;

(E) determine the amount of payments that a school district is obligated to make from its bond and interest fund attributable to general obligation bonds approved for issuance at an election held prior to July 1, 2015; and

(F) multiply the amount determined under subsection (b)(1)(E) by the applicable state aid percentage factor.

(2) For general obligation bonds approved for issuance at an election held on or after July 1, 2015, but prior to July 1, 2022, the state board of education shall:

(A) Determine the amount of the AVPP of each school district in the state for the preceding school year and round such amount to the nearest \$1,000. The rounded amount is the AVPP of a school district for the purposes of this subsection (b)(2);

(B) prepare a schedule of dollar amounts using the amount of the AVPP of the school district with the lowest AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal \$1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts;

(C) determine a state aid percentage factor for each school district by assigning a state aid computation percentage to the amount of the lowest AVPP shown on the schedule and decreasing the state aid computation percentage assigned to the amount of the lowest AVPP by one percentage point for each \$1,000 interval above the amount of the lowest AVPP. Except as provided by K.S.A. 72-5463, and amendments thereto, the state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district. The state aid computation percentage is 75%;

(D) determine the amount of payments that a school district is obligated to make

from its bond and interest fund attributable to general obligation bonds approved for issuance at an election held on or after July 1, 2015, but prior to July 1, 2022; and (E) multiply the amount determined under subsection (b)(2)(D) by the applicable state aid percentage factor.

(3) For general obligation bonds approved for issuance at an election held on or after July 1, 2022, the state board of education shall:

(A) Except as provided in subsection (b)(9), determine the amount of the AVPP of each school district in the state for the preceding school year and round such amount to the nearest \$1,000. The rounded amount is the AVPP of a school district for the purposes of this subsection (b)(3);

(B) except as provided in subsection (b)(9), prepare a schedule of dollar amounts using the amount of the AVPP of the school district with the lowest AVPP of all school districts as the point of beginning. The schedule of dollar amounts shall range upward in equal \$1,000 intervals from the point of beginning to and including an amount that is equal to the amount of the AVPP of the school district with the highest AVPP of all school districts;

(C) determine a state aid percentage factor for each school district by assigning a state aid computation percentage to the amount of the lowest AVPP shown on the schedule and decreasing the state aid computation percentage assigned to the amount of the lowest AVPP by one percentage point for each \$1,000 interval above the amount of the lowest AVPP. Except as provided by K.S.A. 72-5463, and amendments thereto, the state aid percentage factor of a school district is the percentage assigned to the schedule amount that is equal to the amount of the AVPP of the school district. The state aid computation percentage is 51%;

(D) determine the amount of payments that a school district is obligated to make from its bond and interest fund attributable to general obligation bonds approved for issuance at an election held on or after July 1, 2022; and

(E) multiply the amount determined under subsection (b)(3)(D) by the applicable state aid percentage factor.

(4) For general obligation bonds approved for issuance at an election held on or before June 30, 2016, the sum of the amount determined under subsection (b)(1)(F) and the amount determined under subsection (b)(2)(E) is the amount of payment the school district is entitled to receive from the school district capital improvements fund in the school year.

(5) (A) For general obligation bonds approved for issuance at an election held on or after July 1, 2016, the amount determined under subsection (b)(2)(E) or (b)(3)(E) is the amount of payment the school district shall receive from the school district capital improvements fund in the school year, except the total amount of payments school districts receive from the school district capital improvements fund in the school year for such bonds shall not exceed the six-year average amount of capital improvement state aid as determined by the state board of education.

(B) The state board of education shall determine the six-year average amount of capital improvement state aid by calculating the average of the total amount of moneys expended per year from the school district capital improvements fund in the immediately preceding six fiscal years, not to include the current fiscal year.

(C) (i) Subject to clause (ii), the state board of education shall prioritize the allocations to school districts from the school district capital improvements fund in accordance with the priorities set forth as follows in order of highest priority to lowest priority:

(a) Safety of the current facility and disability access to such facility as demonstrated by a state fire marshal report, an inspection under the Americans with disabilities act, 42 U.S.C. § 12101 et seq., or other similar evaluation;

(b) enrollment growth and imminent overcrowding as demonstrated by successive increases in enrollment of the school district in the immediately preceding three school years;

(c) impact on the delivery of educational services as demonstrated by restrictive inflexible design or limitations on installation of technology; and

(d) energy usage and other operational inefficiencies as demonstrated by a district-wide energy usage analysis, district-wide architectural analysis or other similar evaluation.

(ii) In allocating capital improvement state aid, the state board shall give higher priority to those school districts with a lower AVPP compared to the other school districts that are to receive capital improvement state aid under this section.

(D) On and after July 1, 2016, the state board of education shall approve the amount of state aid payments a school district shall receive from the school district capital improvements fund pursuant to subsection (b)(6) prior to an election to approve the issuance of general obligation bonds.

(6) Except as provided in subsections (b)(7) through (b)(9), the sum of the amounts determined under subsection (b)(4) and the amount determined or allocated to the district by the state board of education pursuant to subsection (b)(5), is the amount of payment the school district is entitled to receive from the school district capital improvements fund in the school year.

(7) A school district that had an enrollment of less than 260 students in the school year immediately preceding the school year in which an election is held to approve the issuance of general obligation bonds shall not be entitled to receive payments from the school district capital improvements fund unless such school district applied for and received approval from the state board of education to issue such bonds prior to holding an election to approve such bond issuance. The provisions of this paragraph shall apply to general obligation bonds approved for issuance at an election held on or after July 1, 2017, that are issued for the purpose of financing the construction of new school facilities.

(8) For general obligation bonds approved for issuance at an election held on or after July 1, 2017, in determining the amount under subsection (b)(2)(D) and (b)(3)(D), the state board shall exclude payments for any capital improvement project, or portion thereof, that proposes to construct, reconstruct or remodel a facility that would be used primarily for extracurricular activities, unless the construction, reconstruction or remodeling of such facility is necessary due to concerns relating to the safety of the current facility or disability access to such facility as demonstrated by a state fire marshal report, an inspection under the Americans with disabilities act, 42 U.S.C. § 12101 et seq., or other similar evaluation.

(9) For general obligation bonds approved for issuance at an election held on or after July 1, 2022, the state board of education shall:

(A) In preparing the schedule of dollar amounts pursuant to subsection (b)(3)(B), exclude unified school district No. 207, Fort Leavenworth, from such schedule and determine the point of beginning based on the amount of the AVPP of the school district with the lowest AVPP of the remaining school districts; and

(B) in determining the amount of the AVPP of a school district, exclude the number of students enrolled in a virtual school, as defined in K.S.A. 72-3712, and amendments thereto, that is offered by such school district from the determination of the AVPP of such school district.

(c) The state board of education shall certify to the director of accounts and reports the entitlements of school districts determined under the provisions of subsection (b), and an amount equal thereto shall be transferred by the director from the state general fund to the school district capital improvements fund for distribution to school districts. All transfers made in accordance with the provisions of this subsection shall be considered to be demand transfers from the state general fund, except that all such transfers during the fiscal year ending June 30, 2023, shall be considered to be revenue transfers from the state general fund.

(d) Payments from the school district capital improvements fund shall be distributed to school districts at times determined by the state board of education to be necessary to assist school districts in making scheduled payments pursuant to contractual bond obligations. The state board of education shall certify to the director of accounts and reports the amount due each school district entitled to payment from the fund, and the director of accounts and reports shall draw a warrant on the state treasurer payable to the treasurer of the school district. Upon receipt of the warrant, the treasurer of the school district shall credit the amount thereof to the bond and interest fund of the school district to be used for the purposes of such fund.

(e) The provisions of this section apply only to contractual obligations incurred by school districts pursuant to general obligation bonds issued upon approval of a majority of the qualified electors of the school district voting at an election upon the

question of the issuance of such bonds.

(f) Each year, the state board of education shall prepare and submit a report to the legislature that includes information on school district elections held on or after July 1, 2016, to approve the issuance of general obligation bonds and the amount of payments school districts were approved to receive from the school district capital improvements fund pursuant to subsection (b)(5)(D).
