

2023 Kansas Statutes

74-7019. Architects; qualifications for licensure. Minimum qualifications of applicants seeking licensure as architects are the following:

- (a) Graduation from a college or university program that is adequate in its preparation of students for the practice of architecture, as determined by the board in accordance with applicable rules and regulations;
- (b) proof of architectural experience of a character satisfactory to the board, as defined by rules and regulations of the board; and
- (c) the satisfactory passage of an examination utilized by the board.

History: L. 1978, ch. 326, § 10; L. 1992, ch. 240, § 12; L. 2014, ch. 88, § 13; July 1.
