

House Agriculture and Natural Resources Committee  
Hearing on SB 302  
March 2, 2012

Mr. Chairman,

I want to speak against SB 302. I do not see any need to regulate the not for sale, personal consumption or dressing of chickens, rabbits, or other such small animals.

But if you do work the bill I, at least, ask you to pass the included amendments so that we do not step back into over regulations of custom meat processors.

Representative Bill Otto
