Hello!

My name is Gale Barr and I am a voter in District 2, (Lynn Jenkins). Please support HB2094 for a Conscientious Exemption to Kansas State mandated vaccinations. Parents must have the right to make informed decisions concerning their children.

I moved to the beautiful State of Kansas about 10 years ago and was appalled to find out that parents did/do not have an exemption when it comes to vaccines. I lived in Colorado for 30+ years and the parents of Colorado have this right. I began researching and have found that there are 19 States that have Conscientious Exemption.

I ask that you amend the current Religious Exemption by including the words, "or for reasons of conscience or other personal beliefs".

Thank you so much for your time.

Gale Barr
