

2012 Kansas Statutes

65-184. Purpose of act. The purpose of this act is to regulate and control development of areas of the state surrounding certain impoundments of water to prevent pollution of such impoundments, to assure sound and economical development and maintenance of healthful and sanitary conditions so that the state will realize maximum benefits therefrom, and the health, safety and well-being of the people of the state will be protected.

History: L. 1965, ch. 387, § 1; L. 1969, ch. 294, § 2; April 25.
