

2012 Kansas Statutes

65-4914. Public policy relating to provision of health care. It is the declared public policy of the state of Kansas that the provision of health care is essential to the well-being of its citizens as is the achievement of an acceptable quality of health care. Such goals may be achieved by requiring a system which combines a reasonable means to monitor the quality of health care with the provision of a reasonable means to compensate patients for the risks related to receiving health care rendered by health care providers licensed by the state of Kansas.
