#### SESSION OF 2014

# SUPPLEMENTAL NOTE ON SUBSTITUTE FOR SENATE BILL NO. 298

As Recommended by Senate Committee on Assessment and Taxation

## **Brief\***

Sub. for SB 298 would phase out the mortgage registration tax over five years while simultaneously phasing in over four years additional fees that would be collected by county registers of deeds.

The mortgage registration tax, which is currently levied at the rate of 0.26 percent of the principal debt or obligation secured by mortgages, would be reduced to: 0.2 percent for all mortgages received and filed for record during calendar year 2015; 0.15 percent during calendar year 2016; 0.1 percent during calendar year 2017; and to 0.05 percent during calendar year 2018. The tax would be repealed altogether beginning in 2019.

Current law provides that 25/26ths of the revenue be retained by counties, with 1/26th coming to the state for deposit in the Heritage Trust Fund. The bill would repeal the requirement that any mortgage registration tax receipts be distributed to the Heritage Trust Fund on and after January 1, 2015.

A number of statutory fees currently charged pursuant to KSA 28-115 relative to documents filed with county registers of deeds would be increased from 2015 through 2018 (but would not be increased for a final time in 2019 when the mortgage registration tax rate is reduced for the final time).

<sup>\*</sup>Supplemental notes are prepared by the Legislative Research Department and do not express legislative intent. The supplemental note and fiscal note for this bill may be accessed on the Internet at http://www.kslegislature.org

#### The fee increases would be as follows:

In addition to the foregoing fee increases, an additional fee of \$1 would be levied beginning in calendar year 2015 and credited to the Heritage Trust Fund on the first and all subsequent pages of any deeds, mortgages, and other instruments and on release or assignments of mortgages.

## **Background**

The original bill would have repealed the mortgage registration tax, effective July 1, 2014. The Senate Assessment and Taxation Committee on February 26 amended the bill to strike its original provisions, recommend that a substitute bill be created, and phase out the mortgage registration tax while phasing in certain per-page fee increases.

According to the Property Valuation Division (PVD) of the Department of Revenue, mortgage registration tax receipts in CY 2013 were \$47.079 million. Of this amount, \$45.269 million was retained by counties, while \$1.810 million was collected for the Heritage Trust Fund. But an estimated \$0.719 million of Heritage Trust Fund collections was retained in several counties pursuant to a statutory cap of \$0.1 million

on such distributions from any given county. Estimated Heritage Trust Fund distributions in CY 2013 therefore were \$1.092 million.

The phased reduction in the county's share of the tax would be expected to equate to a loss of: \$9.054 million in CY 2015; \$18.108 million in CY 2016; \$27.161 million in CY 2017; \$36.215 million in CY 2018; and \$45.269 million in CY 2019 and thereafter.

Based on additional data obtained from PVD, the higher county-retained fees levied pursuant to KSA 28-115 would increase revenues by: \$2.210 million in CY 2015; \$4.420 million in CY 2016; \$6.630 million in CY 2017; and, when fully phased in, \$8.839 million in CY 2018. The additional \$1 increase in selected fees for the Heritage Trust Fund would be expected to increase fees by \$2.210 million beginning in CY 2015.
