

Steve Huebert

2-9-20

House Education Committee

Kansas State Capitol

10th and Jackson, Room 286N

Topeka, Kansas

Dear Chairman Huebert,

I fully support HB 2601, limiting the KDHE from mandating vaccines. I fully support exemptions from vaccination. Medical and religious. It is imperative that Kansas maintain these exemptions. All medical procedures come with risk. Vaccination is a medical procedure. The decision to vaccinate should be decided on by individuals themselves or by parents of minors. The state and government should not be able to make medical decisions for people. We must maintain medical freedom in Kansas.

Sincerely,

Kristi Glover

Maize, KS
