Testimony in Support of Senate Bill-87
Driver's License Amnesty Law

Senate Judiciary Committee
Chair, Senator Richard Wilborn
Vice Chair, Senator Julia Lynn
Ranking Minority Member, Senator David Haley
Committee Members

Good morning Honorable Chair and members of the Committee,

Thank you for reading my written testimony in support of S. B. 87; Relating to persons with suspended drivers' license. I support this Bill because I have been in these exact situations in my own life and there are numerous Kansans with similar testimonies. Though I am already in the process of reformation, now with gainful employment and warrant-free, I am all too familiar with the poverty mentality. A lack of knowledge directly impacts the residents of this great State.

This Bill will motivate individuals and give them a way out of trouble with warrants, fines, and reinstatement fees. The people want to change, but do not know how. This Bill will aid them in developing an action plan, building a support system, and giving them a clear direction out of poverty through the programs approved by the Courts. The people can become functioning members of society.

I ask you to support this bill as well, for the People.

Best Regards,
Dominique R. Walker
