

Medicaid Work Requirements

THE PROBLEM: ENROLLEES AREN'T WORKING AND COSTS ARE UNSUSTAINABLE

The number of able-bodied adults on Medicaid has quadrupled since 2000.

In 2000, Medicaid consumed 19.5 percent of state budgets. Today, Medicaid consumes nearly 30 percent—or nearly one out of every three dollars.

These resources can't be spent on cops, kids, roads, or the truly needy.

THE SOLUTION: EXPAND WORK REQUIREMENTS TO MEDICAID

Requires able-bodied adults to work, train or volunteer to maintain Medicaid eligibility

Applies to able-bodied, working-age (18-64) adults

Does not apply to individuals with disabilities, seniors, and kids

Medicaid Work Requirements

IT WORKS

Enrollees go back to work and their incomes more than double.

Their increased incomes more than offset lost benefits.

Enrollees go back to work in more than 1,100 industries.

If every state implements Medicaid work requirements, taxpayers could save nearly \$1 trillion over the next 10 years.

IT'S TRENDING: 18 OUT OF 50 STATES
