*Title IV of the Jobs and Growth Tax Relief Reconciliation Act (JGTRRA) of 2003 included a provision that increased the FMAP rates for all 50 states during the last two quarters of FY 2003 and the first three quarters of FY 2004.

** The American Recovery and Reinvestment Act (ARRA) of 2009 provided a temporary FMAP rate increase to all 50 states. The ARRA FMAP increase lasted from the first quarter of FY2009 through the third quarter of FY2011 (i.e., October 2008 through June 2011)

^ The Families First Coronavirus Response Act (FFCRA) provides a temporary 6.2% increase to the FMAP for the duration of the federal public health emergency. The increase became effective on January 1, 2020 and will extend through the quarter in which the public health emergency ends. As of December 2020, the current public health emergency extends through January of 2021, causing the increase to be in effect through March of 2021.

Information about the JGTRRA and ARRA rates were sourced from the Congressional Research Service <https://crsreports.congress.gov/product/pdf/R/R46346>
