

Response to a question in the House Education Committee February 23, 2021 about the agreement between the Legislature and the State Board of Education in 2015 about Financial Literacy.

2/24/2021

As a result of the joint statement provided in 2015 by the Chair of the House Education Committee, Rep. Highland, and the Chair of the State Board of Education, Jim McNiece, KSDE is pleased to see a dramatic increase in the number of Kansas students that are taking financial literacy courses. In addition, we are also pleased to see a significant increase in the number of courses taught in Kansas schools that offer teaching in financial literacy. While we are making gains in Kansas, KSDE will continue to support schools and districts with the guidance and resources to implement high quality financial literacy courses and instruction.
