Chairman Hilderbrand and Senate Public Health and Welfare Committee Members:

I am in support of SB212.

My daughter was injured by a "recommended" PHARMA product 12 years ago...  
Just one shot....

The decisions we make for our healthcare, MUST BE OURS....  
I have learned the hard way, that being coerced and lied to about vaccines is costing  
lives and at the very least the health of our children....

I will never agree with some random stranger, (DOING A JOB), making the decision to  
add more and more vaccines to an already overwhelming schedule....

Parents are not given informed consent....  
They are told lies to coerce them into a PROCEDURE that they may be questioning....

**THIS NEEDS TO STOP!**

Thank you,  
Terri Goodman
