## **Background**

The bill was introduced by the Senate Committee on Agriculture and Natural Resources at the request of a representative of the Kansas Grain and Feed Association.

In the Senate Committee hearing on January 26, 2021, representatives of the Kansas Agribusiness Retailers Association, Kansas Cooperative Council, Kansas Department of Agriculture (KDA), and Kansas Grain and Feed Association provided **proponent** testimony on the bill, stating the bill would facilitate the proper disposal of unwanted pesticides by reducing the financial burden associated with the disposal and reduce the human exposure risk by having the waste pesticides packaged, shipped, and disposed of by professionals.

Written-only **proponent** testimony was provided by the Kansas Association of Wheat Growers, Kansas Corn Growers Association, Kansas Department of Health and Environment, Kansas Farm Bureau, Kansas Sorghum

Producers Association, Kansas Soybean Association, and Sierra Club.

No other testimony was provided.

The Senate Committee amended the bill by moving the phrase “with no identifiable owner or responsible party” to earlier in the sentence to clarify the term “pesticide waste” includes “pesticides with no identifiable owner or responsible party that have been abandoned or illegally dumped at a site.”

### ***House Committee on Agriculture***

In the House Committee hearing, **proponent** testimony was provided by the Deputy Secretary of Agriculture and representatives of the Kansas Agribusiness Retailers Association, Kansas Cooperative Council, and Kansas Grain and Feed Association.

The House Committee amended the bill by changing the effective date from upon publication in the statute book to upon publication in the *Kansas Register*.

### **Fiscal Information**

According to the fiscal note prepared by the Division of the Budget on the bill as introduced, the KDA indicates enactment of the bill would not result in additional costs or personnel requirements for the agency, as the program was

previously funded by a federal grant and will continue with support from the Remediation Fund, which consists of fees related to pesticide sales and products. Any fiscal effect associated with enactment of the bill is not reflected in *The FY 2022 Governor's Budget Report*.
