Subject: HCR5008 Support

Honorable Chairman and Members of the Committee:

This letter is to request that you take the necessary effort to secure passage of HCR5008 thereby adding Kansas to the "Convention of States". I firmly believe that this is the only way to curtail the federal government's efforts that are currently causing the nation to fall away from what is true, responsible, accountable and right.

I no longer have confidence in any branch of the federal government to be accountable. They appear willing to go to great lengths to avoid accountability whenever possible.

An Article V "Convention of States" would be a reasonable way to deal with the actions of our "unaccountable federal government" that disregard state rights and the wisdom of our founding fathers.

I am aware that the Convention of States has some small risk. The risk of a Convention of States is far less than the certain destruction of our republic that is now taking place. I would trust the actions of 75% of our states far more than our U.S. Legislature.

Sincerely,

Carl Nelson
