Bill # HB2793

Proponent

Written Only testimony

Chairwoman Landwehr and Members of the Committee,

I support House Bill 2793. Children are a parent's responsibility. Any other individual or entity cannot make life changing decisions for a minor child. Children are being harmed by those that think it is acceptable to induce harm in a child, either through life changing hormones or through pursuing surgical amputations, or even through medications that can have adverse affects including death. This practice is unconscionable and was fought ferociously during WW2. We cannot fail the children of this world.

Thank you.

Patricia Lanter
