House Committee on Rules and Journal, Chair and members:

Oppose any change to rule 2707 in HR6004.

I, and the voting members of my family, ask that you not entertain any rule change that would allow only a simple majority vote where a two-thirds majority vote is required. The Kansas Constitution requires a two-thirds majority to pass resolutions for things like a resolution for an Article V constitutional convention. The approval of a resolution should be based on the merits of substantive arguments, not on a change in the Constitution in order to pass a resolution.

Again, do not consider any change to rule 2707 in HR6004.

Thank you for your consideration of this matter.
