

Senate Assessment and Taxation Committee:

I hope that you support SCR 1610 to max the house value raise at 3% max per year.

I'm a senior citizen and for the past 2 years I have had 10% increases. At this rate when will the State own my house as I can't afford this type of property tax increase? The State continues to use comps to compare with that are homes that just sold. These houses have been fixed up in every way for sale even though our houses haven't. The accessor says this is fair even though it's not. Please put an end to these drastic increases.

Thank you

Tim Hecker
