

WRITTEN TESTIMONY IN FAVOR OF SB 255

Senate Education Committee

March 13, 2023

RE: Proponent Written Testimony for SB 255

Dear Senator Baumgarder and Senate Education Committee:

This written testimony for SB 255 is to ask that you support and vote SB 255 favorably out of committee. Please support it on the floor as well and send it to the governor.

This bill is a common sense guarantee that biological males and females will be provided separate accommodations when on school sponsored overnight trips. As a parent and grandparent, I would require no less for my child. Young boys and girls certainly need their privacy and protection when away from home.

Thank you for your service to our state and for consideration of my testimony.

Kathy Martin
