

My name is April Cromer. I am from Leavenworth County.

In 2021, I decided to run as a write-in candidate for the local school board, USD-469. I used Facebook as a campaign tool since my write-in campaign began only 3 1/2 weeks before the general election. I ran for no government mandates; keeping political ideologies out of the classroom to stop indoctrination; respecting parental wishes for their children; and other conservative values. Unfortunately, Facebook shut down my campaign page one week before the election. I lost the school board election by just under 100 votes as a write-in candidate. Censorship affected my 2021 municipal election!

This nation is suffering at the hand of a "Woke" culture that wishes to end our Constitutional Republic. As a part of the Kansas State Legislature, you are our only hope to stop this Big Tech cancel culture. Our founding fathers gave us a beautiful Constitution to protect us from tyranny from the federal government who has used Big Tech as a weapon to stop us conservatives. Now we need you to enforce your authority under the 10th Amendment and stop this encroachment on our 1st Amendment rights.

Vote Yes on SB 50!
