Mr. Chairman and members of the committee, My name is Jake Anderson, I am a lifelong Topekan and have over a decade of experience in the hemp and cannabis industries across the country. I am writing as a proponent for SB 555 in support of the passage of medical marijuana in Kansas. With the pilot program structure of this legislation, I believe my wide breadth of experience in different medical markets and areas of the field could provide real-world examples that demonstrate the viability of this legislation.

I look forward to expanding on this during my oral testimony and will make myself available for any questions the committee may have.
