

Senate Public Health and Welfare
SB 219
Proponent Testimony
February 16, 2023

Dear Honorable Chairwoman Senator Gossage and Members of the Senate Health and Welfare Committee,

I strongly urge your support of SB 219.

I am vehemently opposed to abortion – the intentional brutal murder of innocent preborn children. Therefore, I am opposed to any tax-payer money to be used to support or subsidize any so-called abortion clinic in any way, directly or indirectly, including the purchase of insurance through the Healthcare Stabilization Fund.

Please use your God-given authority in your position to ensure that Kansan's tax money will not contribute in any way to support/subsidize this most egregious evil practice.

Sincerely,

Julie Edmondson
Senate District 3
