SB46

written only proponent

Lyndi Ring

St of Kansas taxpayer and registered voter

7855622308

My name is Lyndi Ring, I live on a 120 year old family farm in Marshall Co. I now see 53 flashing red lights at night. The closest turbine to my land is 600 feet. I did not ask for my mental state or my livestock operation to be disrupted. PLEASE, the very least you could do is make the lights turn off at night, believe me the sound will still be there.

If there was notification about this bill I would have had the time to give you a number of air traffic at night in Marshall County but there was not. There just is not enough air traffic to warrant the cost of the flashing red lights in my area. Please pass SB46.

thank you for reading,
